

CET GENERAL COURSE

Perform rescue from a live LV panel and CPR (General public)

OVERVIEW

This nationally accredited course provides participants with the training skills and knowledge to perform rescue procedures from live low voltage (LV) apparatus, not including overhead lines and underground cables, in the work place. It specifies the mandatory requirements of rescue from a live LV panel and how they apply in the context of transmission, distribution and rail work functions.

This course also provides the skills and knowledge required to perform cardiopulmonary resuscitation (CPR) in line with the Australian Resuscitation Council [ARC] Guidelines.

CONTENT

Units of competency:

HLTAID009	Provide cardiopulmonary resuscitation
UETDRRF004	Perform rescue from a live LV panel
