

## CET POST TRADE COURSE

# Perform rescue from a live low voltage panel and CPR (Licensed electricians)

## OVERVIEW

This nationally accredited course provides participants with the training skills and knowledge to perform rescue procedures from live low voltage (LV) apparatus, not including overhead lines and underground cables, in the work place. It specifies the mandatory requirements of rescue from a live LV panel and how they apply in the context of transmission, distribution and rail work functions.

This course also provides the skills and knowledge required to perform cardiopulmonary resuscitation (CPR) in line with the Australian Resuscitation Council [ARC] Guidelines.

## REQUIREMENTS

A current WA 'Unrestricted Electricians Licence' or its equivalent issued in an Australian state or territory or:

- **UEECD0007** Apply work health and safety regulations, codes and practices in the workplace statement of attainment; or
- **UETDREL006** Work safely in the vicinity of live electrical apparatus as a non-electrical worker statement of attainment.

## CONTENT

Units of competency:

<b>HLTAID009</b>	Provide cardiopulmonary resuscitation
<b>UETDRMP007</b>	Perform rescue from a live low voltage panel

## DURATION

8 hours.

## PRICE

<b>Course fee</b>	\$120
<b>Relevant membership discount fee*</b>	\$114
<b>Subsidised fee</b>	\$36

\*Relevant Membership discount will be applied to the full fee. CET will verify membership eligibility.

*The CTF provides funding support for training of eligible workers in the construction industry. We acknowledge the support of the CTF in reducing the costs of training for eligible workers.*
