

## CET POST TRADE COURSE

# UEE20120 - Certificate II in Split Air Conditioning and Heat Pump Systems

## OVERVIEW

This course is facilitated and certified by Skillbuild Training through an established partnership with CET.

Designed for licensed electricians and 4th year apprentices who wish to obtain a Refrigerant Handling Licence (RSS03) from the Australia Refrigeration Council (ARC). You will learn to install and decommission single head split systems of less than 18 KW<sub>r</sub> (cooling capacity).

Theory is taught through face-to-face sessions, aided by learner guides and presentations, covering necessary paperwork and legislation aligned with ARC requirements. Practical sessions take place in a workshop setting with supplied materials. Assessments will include written tasks and practical demonstrations on two inverter air conditioners.

## REQUIREMENTS

Learners must hold a current WA Unrestricted Electrician's or Training Licence or equivalent issued in an Australian State or Territory or be in the final year of their electrical apprenticeship.

All participants will need a Trainee Licence from the Australian Refrigeration Council to attend the course. Details will be provided so you can apply for this prior to your course.

Learners are required to complete a 2 hour pre-course assignment.

## CONTENT

This course has 10 core and 1 elective units of competency – visit [cet.asn.au](http://cet.asn.au) to view the unit details.

## DURATION

2 days

## PRICE

Course fee	\$2180
