

CET POST TRADE COURSE

Standalone Power Systems (Design and Install)

OVERVIEW

This training is designed for electricians who wish to further improve their skills and knowledge in Stand Alone Power systems, analyse information, create tailored solutions for clients and communicate these solutions to others.

After obtaining a Statement of Attainment, learners may be eligible to apply for accreditation through Solar Accreditation Australia (SAA). Learn more at saaaustralia.com.au.

This course is facilitated, certified and delivered by PMV Training (RTO codes 51178 and 52698) through an established partnership with CET. This course will be held at a PMV Training facility and delivered by PMV trainers and assessors.

REQUIREMENTS

To be eligible to enrol in this training, a Statement of Attainment must be provided for the following courses (both available through CET):

**Solar Grid Connect PV
(Design and Install)**

bit.ly/CET_SolarGridConnect

**Battery Storage for Grid-
Connected PV Systems
Design and Install**

bit.ly/CET_BatteryStorage

Learners must also hold a current WA Unrestricted Electrician's Licence or equivalent issued in an Australian State or Territory.

CONTENT

Units of competency:

UEERE0055 Conduct site survey for off-grid photovoltaic/generating set systems

UEERE0063 Design off-grid photovoltaic/generating set systems

UEERE0079 Install off-grid power conversion equipment to electrical installation

DURATION

4 Days

PRICE & LOCATION

Course fee (PMV Perth Campus)

\$3,500*

* CTF Funding may be available. Please visit <https://ctf.wa.gov.au/funding/upskilling-short-course-funding/> for more information or contact PMV Training for assistance.

The CTF provides funding support for training of eligible workers in the construction industry. We acknowledge the support of the CTF in reducing the costs of training for eligible workers.
